Dollar Hotel Project to Kick Off the New Year*

Coral Gables, FL. – January XX, 2020 – [Nolan Reynolds International](#), formerly NP International, today announced an official company rebrand to start the New Year and a new era for the recognized leader in real estate investment, development and hospitality operations. With more than 130 years of combined experience, NRI has completed more than \$6 billion dollars of construction ranging from large-scale government infrastructure to private mixed-use projects and acclaimed hospitality assets.

“I am very proud of the success the company has had to date and look forward to continuing to develop projects that I believe will positively impact the communities in which we work,” said Brent Reynolds, CEO of Nolan Reynolds International. “I am confident that our targeted approach to real estate development will continue to pay homage to the company’s roots while expanding in a more modern era.”

In addition to the new company name and renewed branding, the leading real estate development group recently added an investment arm to their internal structure and is expanding their hospitality footprint throughout the United States and Latin America.

Recent projects include [Paseo de la Riviera](#), a mixed-use development situated on South Dixie Highway across from the University of Miami and the launch of [THēsis Hotels](#) with their first property opening in March in Coral Gables, Florida. Known in the travel industry for creating and operating the acclaimed [Casa Chameleon Hotels](#), Nolan Reynolds International will expand their hospitality portfolio and potentially the THēsis brand in collaboration with the Culinary Institute of America, adding a new hotel to the college’s Hyde Park campus overlooking the Hudson River. Nolan Reynolds International was selected from a competitive request for proposal process to design, finance, build, and operate the college’s \$98 million hotel estimated to open in spring 2023.
